NEW LOOK & FEEL

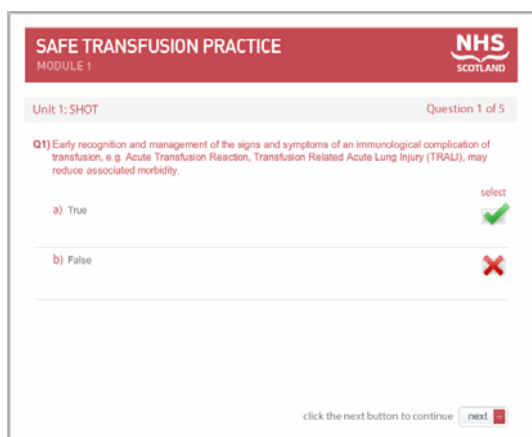

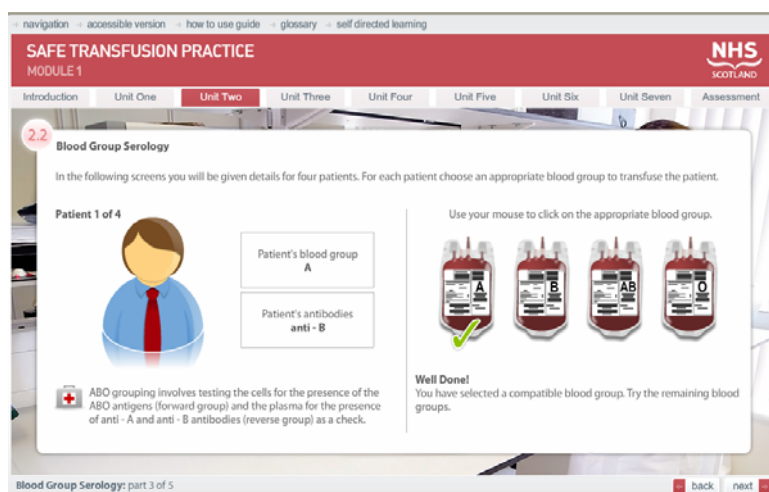

Safe Transfusion Practice Module 1 and Safe Transfusion Practice in the Laboratory

Right Blood,
right patient,
right time!

Safe Transfusion Practice Module 1 has undergone a major redevelopment programme which has both updated the design of the modules and the software that they are built in.

All the content and assessments are the same, so these new modules will simply replace the old version – you will not need to revalidate until your current pass is elapsed.

If you have any queries regarding this new version please contact the Learnbloodtransfusion team at

nss.LBTquery@nhs.net

or by phone on

0131 536 5947.
